

INTERVIEW FEEDBACK

1. RIOT GAMES

Xioayang (data scientist).

- (1) primarily interested in research. Our focus is building up data science product
- (2) This is a dynamic environment—be humble, try to learn new things
- (3) Got feeling I was looking for a more laid back environment—they are looking for more fast paced guy (interpretation—work a lot, get paid little)
- (4) Vibe they got is I'm looking for more low level team members to do the tedious work (this is true—it seems they want one or two data scientists to do basically everything)

Krissi (HR).

- (1) Organizational misfit, not right culture for me
- (2) Reapply period—no fixed period, just enough time to grow/align with company (uh, no thanks)
- (3) Cover letter showing how you align better
